And What Have You

By BOB CRAIG

Just some odds and ends that we picked up here and there:

Welfare departments get some mighty strange requests and letters and the meanings of some are veiled and at times take an interpreter to decipher, although most are scrawled in what passes as the English language (although the grammar and diction would give an English teacher heart failure or at least stomach ulcers).

Here are just a few of the many welfare department letters sent in by recipients or recipient hopefuls.

"I am forwarding my marriage certificate and six children. I have seven, but one died, which was baptized on a half sheet of paper."

"I am writing to Welfare to see that my baby was born two years old. When do I get my money?"

"Mrs. Jones had not had any clothes for a year and has been visited regularly by the preacher."

"I cannot get sic pay. I have six children. Can you tell me why?"

"I am glad to report that my husband who is missing is dead."

"This is my eighth child. What are you going to do about it?"

"Please find out for certain if my husband is dead. The man I am living with can't sleep or do anything until he knows."

"I am very much annoyed to find out you have branded my son as illiterate. This is a dirty lie, as I was married a week before he was born."

"In answer to your letter, I have given birth to a boy weighing 10 pounds. I hope this is satisfactory."

"I am forwarding my marriage certificate and three children. One of which is a mistake as you can see."

"My husband got his project cut off two weeks ago and I haven't had any relief since. Why?"

"Unless I get my husband's money pretty soon, I will be forced to lead an immortal life."

"You have changed my little boy to a girl. Will this make a difference?"

"I have no children as yet as my husband is a truck driver and works day and night."

"In accordance with your instructions I have given birth to twins in the enclosed envelope."

"I want money as quickly as possible I can get it. I have been in bed with the same doctor for two weeks and he doesn't do me any good. If thing's don't improve I will have to send for another doctor to help him."

We heard about a feller who was acting as vicar at a dog show the other day. He was scandalized at the costumes worn by some members of the younger fair sex.

"Look at that youngster," said he, "the one with cropped hair, the cigarette and breeches, holding two pups. Is it a boy or a girl?"

"A girl," said his companion. "She's my daughter."

"My dear sir!" The vicar was flustered. "Do forgive me. I would never have been so outspoken had I known you were her father."

"I'm not," said the other. "I'm her mother."

Lots of things are against the law, including lots of things you wouldn't think were out of the ordinary.

But, did you know:

It is illegal to hunt or shoot camels in Arizona.

In Compton, Calif., dancing cheek to cheek is prohibited.

Beanshooters are prohibited by law in Arkansas. Any person found using a beanshooter or similar implement, shall be deemed guilty of a misdemeanor.

It is against the law in Pueblo, Colo., to raise or to permit a dandelion to grow within the city limits.

In Vermont, it is illegal to whistle under water. By the way, I've tried that before. Don't believe that law is necessary.

WILLINGHAM INTERESTED—

District Court for Jones-Shackelford Counties Created

Jack Willingham, local attorney, and Leon Thurman, Jones County judge, apparently are both seeking the new post of District Judge for the newly created 259th District Court for Jones and

Shackelford counties.

The new court, along with a number of other District Courts across the state, was created by this session of the Legislature and is awaiting the signing of the bill by Gov. Dolph Briscoe.

The new court would take Jones County out of the present 104th District Court of Judge J. Neil Daniel and would transfer Shackelford County out of the 90th District.

Under the new bill, which would become effective Sept. 1 if signed by the Governor, 104th Dist. Judge Daniel of Abilene would serve only Taylor County. Criminal Dist. Atty. Lynn Ingalsbe would serve only Taylor and Callahan counties, both of the men dropping Jones County from their responsibilities.

Apparently, Shackelford County Judge Quay Parker will be seeking the newly created post of district attorney for district.

It was not known Tuesday if there would be others actively seeking the two new posts.

There have been numerous attempts over the years to create a new district court which would separate Jones and Taylor counties. In some of the other bills that have failed in the past, Jones was put in with Fisher, Stonewall and Haskell counties. In a bill during the previous session of the Legislature, an attempt was made that would have created a separate district for Jones County but this too failed.

Apartments Now Being Rented Here

John Howard Jr., administrator for the Hamlin Housing Authority, said this week that a number of people have started moving into the new apartment complexes. He said that there were still some apartments available.

The Authority is in the process of completing the yard work on the two complexes but the apartments are completed.

A total of 14 apartments were constructed by the Housing Authority with seven of them located downtown and seven across from the new middle school. There are four one-bedroom apartments and 10 two-bedroom units.

Anyone interested in renting an apartment should contact Howard at 576-3964.

Heavy Crop Damage In Sunday Hail Storm

A Sunday evening hail storm did extensive damage to area crops, but only limited damage to most of the roofs within the city. The hail, up to golf ball size, and high winds came out of storm moving out of the northeast Sunday evening.

Ladies Swim Class to Start

A swimming class for ladies will be offered in Hamlin, under the sponsorship of the Hamlin Community Education Program. Participants may simply enjoy an evening of exercise with other ladies; however, basic swimming instruction will also be available for those who desire it, according to Carlton Taylor, director.

The class will begin Monday night, June 6, at 7 p.m. at the city pool. It will meet from 7-9 p.m. each Monday for four weeks. Fee for the class is \$4.00. Instructor will be Coach Bill Grissom.

Ladies who wish to enroll in the class may do so at the first class meeting. Residents of all area towns are invited to participate, according to Taylor. Persons desiring more information should contact Taylor at 576-3624 during school hours or 576-2319 after school hours.

The wind and hail did heavy damage to the bumper wheat crop in its path. The storm, which ranged from northeast of Hamlin to as far south as San Angelo, probably destroyed as much as a half million dollars of wheat over the Big Country area, according to Robert Fowler, manager of Moore Elevator.

Considerable damage was also done by the hail and heavy rain to the young cotton in the area. The major problem with the young cotton is that the deadline to plant is at hand and it is expected to take several days before the fields will be dry enough to work.

A check with local insurance agents here Tuesday indicated that most of the hail damage to roofs was confined

to the flat roofs in the downtown section. Only minor residential roof damage was reported.

The high winds knocked down a number of trees in the area and the gardens suffered extensive damage. Winds up to 70 mph were estimated during the storm. One plate glass window was knocked out in the front of Howard Drug by the high wind and hail. Other windows were reported knocked out in other parts of the city.

The heavy rains Sunday slowed down the area wheat harvest that was just getting into full swing over the weekend. Fowler said that the elevator received only 25 to 30 loads of wheat Monday afternoon and they had expected to receive about 100 before the storm.

Rainfall from the storm was recorded as 1.54 bringing the total for May to 4.63.

Readings for the month taken at 5 p.m. in the evening by Bill Rountree are May 5, .02; May 6, 1.05; May 9, .22; May 10, trace; May 18, .05; May 19, trace; May 20, .26; May 21, 1.43; May 26, .06 and May 30, 1.54.

Cemetery Work Day Cancelled

The Hamlin Cemetery work day scheduled for Saturday, June 4, has been cancelled, according to officers of the Hamlin Cemetery Association.

PSALMS

VID'S TRUST IN PRAYER
PSALM 23
David's confidence in God's grace.
A Psalm of David.

THE LORD is "my shepherd; I shall not want.

He maketh me to lie down in green pastures; He restoreth my soul.

Yea, though I walk through the valley of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

Thou art with me; thy rod and thy staff they comfort me.

The 23rd Psalm is one of the most familiar chapters in the Bible. Early in life, most of us have committed it to memory. Every once in a while we should go back to these verses and think of the wonderful message of faith and trust in God that they reveal to us. They show us that we have a loving Father; one who will show us the right paths; one who will protect and provide for us. These

scriptures end with a note of thanksgiving and a promise.

"Surely goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever."

Plan to start a regular worship in the Lord's house.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

WTU Warns Customers Of High Summer Bills

A long hot summer could produce some of the highest electric bills in years, West Texas Utilities Co. officials warned this week.

And according to some weather observers, official and otherwise, a hot summer is long overdue. West Texas, like much of the nation, has enjoyed five relatively cool summers in a row. The law of averages, therefore, would indicate a change.

One of the consequences would be more use of air-conditioning, requiring more electric energy. This could run bills up sharply.

There already are indications that customers may soon be jolted out of their summer lull. During the first 21 days of May, temperatures in Abilene averaged 5.81 degrees above normal and

electric usage went up accordingly.

A change back to even the normal weather pattern could bring the impact of higher usage and higher costs, a company spokesman said.

Historically, the four peak months for electric usage in the WTU territory are June through September. The peak day usually comes in August. Last year, the system's electric load peaked at 5 p.m. on August 11.

Weather records for Abilene and San Angelo show that June-through September temperatures have averaged below normal for the past five years. The result, WTU officials say, has been that the customers have grown accustomed to relatively lower summer electric usage.

WTU officials are not worried about meeting the energy demand. The company's generating system is adequate to supply all the electricity needed even on an extremely hot day. But they are urging customers to practice conservation in order to hold their usage and bills down.

The key to lower bills this summer will be efficient handling of home cooling. Proper ceiling insulation and adequate attic ventilation are

two of the most important factors. WTU engineers also suggest that thermostats be set at 78 degrees, that houses be opened up to take advantage of nature's cooling when the outside temperature is less than 75 degrees, and that shades be kept pulled on the sunny side of the house.

They also urge that air-conditioners be checked to see if they are in good working order, and that air-conditioners not be left running if everyone leaves the house for a substantial length of time.
